IKS Health Coding Suite

Integrated Documentation.
Accurate Coding.
Faster Reimbursements.
Greater Compliance.

IKS HEALTH

Coding That Understands Care. Accuracy That Powers Revenue.

IKS Health offers the industry's first true encounter-to-reimbursement platform that seamlessly converts AI-generated clinical notes into audit-ready, accurately coded claims. Our integrated solution eliminates the friction between documentation and coding teams, ensuring every billable moment is captured and properly coded.

Unified Clinical Documentation-to-Coding Workflow

Advanced technology + Trained coding experts -> Industry's most accurately coded claim

Smarter Documentation-to-Coding

▸ Captures care in real time with AI-powered ambient documentation
▸ Ensures compliant notes with 95%+ coding accuracy from the start
▸ Saves physicians up to 90 minutes per day on documentation and coding tasks
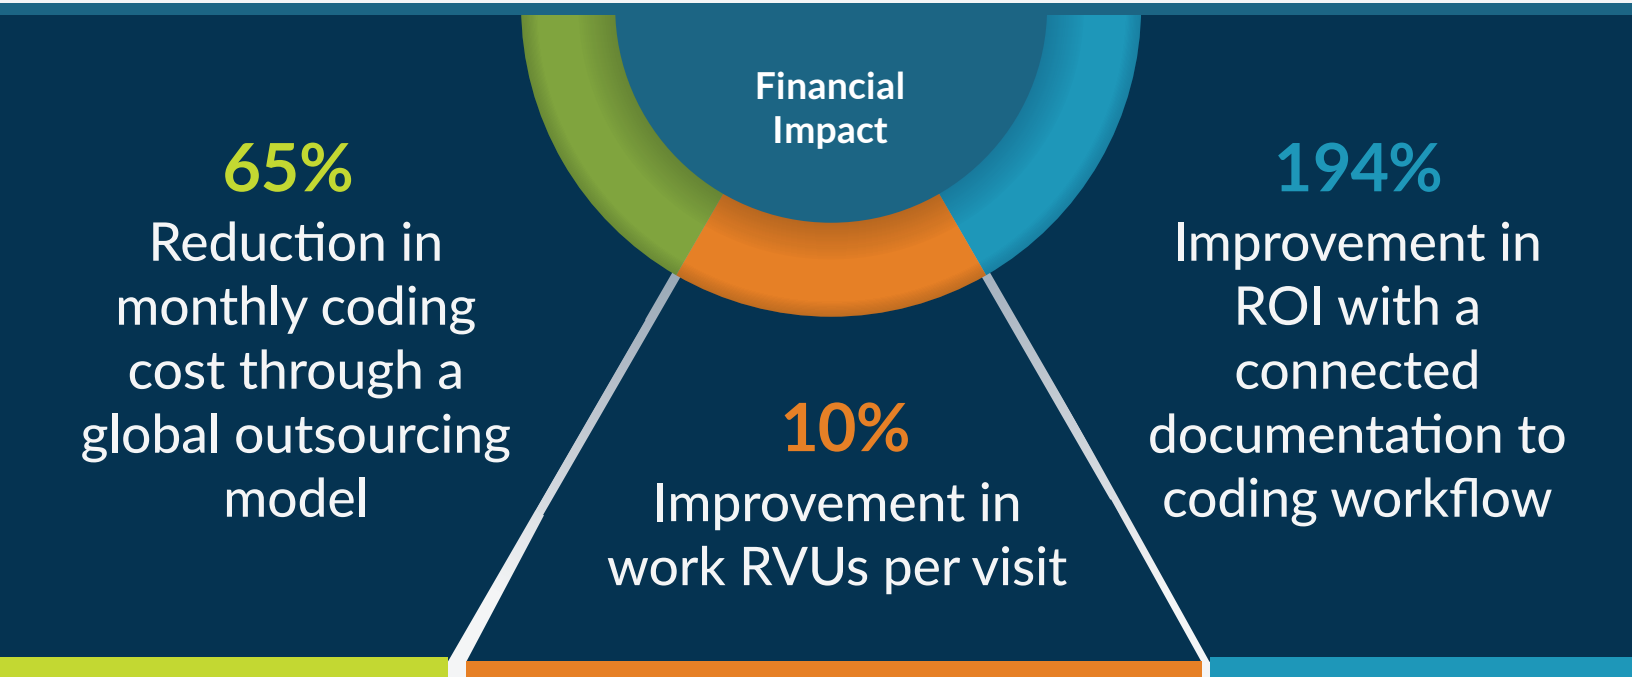

Proactive Compliance and Revenue Protection

▸ Provides a fully traceable audit trail for every claim
▸ Pre-Bill Review Engine predicts payment likelihood and ensures compliance

True Clinical Intelligence

▸ Coders trained to think like clinicians, understanding the care behind the codes
▸ Captures nuance, comorbidities, risk indicators, and medical necessity

Driving Financial Strength, Operational Excellence, and Clinician Satisfaction

An integrated documentation and coding solution delivers measurable improvements across the revenue cycle, reducing inefficiencies, strengthening compliance, and freeing clinicians to focus on patient care.

Financial Impact

65%
Reduction in monthly coding cost through a global outsourcing model

10%
Improvement in work RVUs per visit

194%
Improvement in ROI with a connected documentation to coding workflow

Operational Excellence

24-48 hour turnaround
time globally

Reduces denials through
predictive analytics

Minimizes rework
with proactive audits

Clinical Satisfaction

Reduces clinician burden
by eliminating documentation tasks

Improves provider satisfaction
and retention

Enables focus on patient care rather than administrative work

Our Integrated Solution Components

Clinical Documentation (Scribble Now)
Our Clinical Coding Suite comes with Scribble Now, our Ambient AI documentation solution, natively built-in to reduce clinician administrative burden and create financial certainty.

Full-Service Medical Coding
An autonomous, preemptive, end-to-end coding solution for inpatient, outpatient, hospital-based, and professional billing, delivering 95%+ accuracy.

Pre-Bill Review Layer
Ensures charge integrity by validating every claim against revenue rules, compliance standards, and payor likelihood—reducing denials, improving cash flow, and increasing coding accuracy

Comprehensive Coding Audits
Continuous improvement program that identifies compliance risks, uncovers revenue opportunities, and delivers strategic roadmaps for enhanced coding performance.

Why Healthcare Leaders Choose IKS Health

40+ years of experience delivering high-quality, **compliance-driven coding** services

SOC 2 compliant and fully integrated within your **EHR system**

Domestic and global operations with **24/7 coverage** and **48-hour maximum turnaround time**

Reduce Denials. Capture Revenue. Stay Audit-Ready

Contact IKS Health to learn how our integrated Clinical Coding Suite with Scribble Now can eliminate documentation burdens, streamline coding, reduce denials, and drive stronger financial outcomes.

Industry-leading accuracy.
Faster reimbursement.
Optimized revenue cycle.
